Hi. I've been developing responsive interfaces for the front end of websites. I have completed a number of projects for both academic and learning purposes. I have expertise in working on projects using the MERN stack. I enjoy putting my knowledge to the test with a variety of projects and difficulties. To enrich my knowledge, I like to experiment with new tools and technologies.

Education

Bachelor's Degrees in Computer Science, *International Islamic University Chittagong*
I successfully completed my bachelor's degree in computer science with a 3.3 out of 4 CGPA.

Skills

Front-End Developer
I am proficient in HTML, JavaScript, React, Firebase, CSS, Bootstrap, Tailwind, and Sass, Heroku,Vercell MongoDB, Git,GitHub, and Docker. I am able to build front-end websites that are dependable and optimized.

Problem Solver
I have decent problem-solving abilities and a solid grasp of C++, Javascript, and Python.

React Developer
Have a strong grasp of React and its Frameworks. I worked on various projects that used react, react-query, and react-form-hook as a front-end tools.

Web Designer
Designing responsive web interfaces with pixel-perfect accuracy and having expertise with Figma and Canva.

Projects

Houselet, *A website for listing houses and residences.* ↗

Red Onion, *Modern Restaurant Site* ↗

EmaJhon, *A dynamic e-commerce wesbite to buy products* ↗

Languages

I'm fluent in English, Bangla, and Hindi.

Certificates

- Responsive Web Design By FreeCodeCamp ↗
- JavaScript Algorithms and Data Structures By FreeCodeCamp ↗
